Professional Summary

Frontend Developer and UX Engineer building responsive web and mobile applications with React, Next.js, React Native and TypeScript. Rebuilt Gamersberg's trading frontend, implemented its community messaging interactions and built its CMS dashboard. Turn product requirements into reusable components, API specifications and integrated interfaces, working closely with backend engineers on scope and delivery. Use Claude and Codex in day-to-day development.

Technical Skills

Frontend	:	React, Next.js, TypeScript, JavaScript, HTML5, CSS3, Tailwind CSS, shadcn/ui, Framer Motion
Mobile	:	React Native, Expo
Engineering	:	Reusable components, responsive UI, REST API integration, Jotai, API requirement specs, Lighthouse performance audits, Git, GitHub
Design & Tools	:	Figma, user flows, interaction design; AI-assisted development with Claude and Codex

Experience

Chief Product Officer Jul 2025 – Present
Gamersberg · Hands-on frontend and UX delivery *Remote*

- Implemented responsive community and messaging interfaces across web and React Native, covering channel navigation, replies, reactions, message actions, attachments and unread states.
- Designed and built the CMS dashboard and reusable content templates for game pages, including the interface and content logic, and specified the backend APIs it required.
- Translated product requirements into technical documentation for engineering: specified API endpoints and data needs and planned feature architecture for message search, content history and read-state synchronisation.
- Ran Lighthouse and other performance audits on web interfaces and documented findings and recommendations in reports for the engineering team.
- Led product and UX direction across game communities, Rooms, discussions and rewards. During my tenure, registered users grew from about 200K to 1.5M and the Android app passed 50K Google Play downloads.

Product Designer & UI Engineer Mar 2025 – Jul 2025
Gamersberg *Remote*

- Rebuilt the trading platform's legacy frontend around reusable components and responsive layouts for offers, requests and item comparison.
- Adapted web layouts and interaction patterns into the mobile app's first interface.

Associate UI/UX Designer Aug 2024 – Mar 2025
Benepik Technologies *Gurugram*

- Redesigned legacy product screens and collaborated with developers on responsive components and application data integration.
- Designed a spin-wheel interaction for a Hero FinCorp festive employee bonus event.

UI/UX Graphic Designer Intern Feb 2024 – Apr 2024
Jai Kisan *Bengaluru*

- Created interface mockups and visual assets for fintech products.

Education

Christ University Bengaluru
Bachelor of Computer Applications (BCA) *2021 – 2024*
