Product Designer / UX Engineer

Product designer and UX engineer who leads visual direction and builds the interfaces behind it. Shaped Gamersberg's identity and experiences across its website, game hubs and mobile app, from onboarding to community interactions.

Experience

Chief Product Officer | Gamersberg

Jul 2025 – Present

Remote | Hyderabad

- Led visual and UX direction with the team across Gamersberg web and mobile, spanning game hubs, communities, giveaways, onboarding and marketing pages.
- Directed the product identity, mascot and app-store visuals while building consistent patterns for content, utility tools and social features.
- Designed and implemented a community-server refresh covering chat, navigation, member lists, composers and mobile interaction states.
- Worked with engineering to translate product ideas into actionable flows, screen specifications and iterative UI improvements.

User Interface Engineer | Gamersberg

Mar 2025 – Jul 2025

Remote

- Designed and built the early Gamersberg web UI, establishing reusable component patterns and the visual foundation for later releases.
- Mapped onboarding and discovery experiences and iterated on screens with product and engineering feedback.

Associate UI/UX Designer | Benepik Technologies

Aug 2024 – Mar 2025

Gurugram

- Redesigned legacy product screens with a focus on clearer interactions, responsive layouts and consistent visual patterns.
- Collaborated with developers to turn UI designs into reusable components and connect screens to application data.

UI/UX Graphic Designer Intern | Jai Kisan

Feb 2024 – Apr 2024

Bengaluru

- Produced interface mockups and visual assets for fintech products while maintaining brand consistency.
